As you may be aware, Clinical Research Industry in India is witnessing a burgeoning growth. India is rapidly becoming a hub of global clinical research and pharmaceutical R&D. Large number of Indian and foreign pharmaceutical companies are increasing their investments in the Drug R&D and Clinical Research. There are over 150 companies, which are at present involved in the clinical trials in India, and are growing rapidly. By 2012, industry size would be over Rs.9,000 crores. Industry is growing at over 40% per annum.

In view of increasing investments in this sector, industry is facing a huge shortage of qualified and trained professionals with formal training in Clinical Research. As a result, the salaries in this sector are perhaps one of the best in the industry. In the next 5 years there are going to be over 100,000 new jobs in the clinical research industry. At present there is a shortage of over 10,000 new clinical research professionals.

For the last 4 years, Cliniminds has been at the forefront of the Clinical Research Industry and has been providing training & education services and consulting services to the both industry and students, in the form of short Courses/Workshops, Classroom Program and Online/Distance Learning Programs.
