

Cliniminds Launches India's First Online Post Graduate Program in Quality Assurance in Clinical Research and Post Graduate Program in Pharmacovigilance

New Delhi, Cliniminds today announced the launch of Online/Distance Learning Post Graduate Program in Quality Assurance in Clinical Research and Post Graduate Program in Pharmacovigilance. These programs are also available in Classroom mode at the New Delhi center of Cliniminds.

Cliniminds today also announced scholarship program for these courses for classroom batch starting May 2008. "Students who would be taking admission in the Post Graduate Program in Quality Assurance in Clinical Research & Post Graduate Program in Pharmacovigilance in classroom batch would be considered for this scholarship program", said Dr. Sood, Medical Advisor, Cliniminds.

Dr. Amit Bhatt, President & CEO of Nexus Clinical Research (NexusCRO) who inaugurated these programs said *"This program will increase the knowledge and importance of quality assurance amongst clinical research professional, which eventually would help in increasing the quality of clinical trials in India"*.

Dr. Sood, Medical Advisor, Cliniminds who inaugurated these programs said, **"Post Graduate Program in Pharmacovigilance has been designed keeping in view the increasing global activity in India in the field of Pharmacovigilance"**.

Cliniminds is the largest Online and Distance Learning provider in India and offer wide range of clinical trial training programs.

All the programs are certified and accredited by Pharmaceutical Society of India.

Students or professionals who would like to undertake these programs can make payment online through credit card, debit card or through e-check facility and can start the program within few days upon signing up for the course. Cliniminds also offer students payment in easy interest free installments.
