

Cliniminds - DIA Student Chapter

New Delhi, Monday, 18 July 2016

Cliniminds is pleased to announce that it has been appointed as the “Student Chapter of DIA” (Drug Information Association), a leading global drug industry association. DIA is the only global organization dedicated to bringing health care product development professionals together in a neutral environment to improve health and well-being throughout the world.

This would help Cliniminds students in receiving exposure to recent global developments in the pharmaceutical industry and help them grow professionally. DIA also provides excellent opportunities to the students at various DIA international forums and networking opportunities.

Cliniminds is the prestigious life / health sciences education and training institution offering job oriented programs in the clinical trials, pharmacovigilance, data management, biostatistics, medical writing, regulatory affairs and other subjects, since 2004. Over 5,500+ professionals and students have been trained and offered jobs in the life sciences industry.
