

# Clinical research training courses

**K**TVR Vijaydeepa Group, Coimbatore, will launch Cliniminds Clinical Research Training in the classroom and e-learning mode for candidates of Tamil Nadu and Puducherry.

According to V. Janarthanan, Managing Director of KTVR Group Hospital, the course will be launched on August 14. The Cliniminds' centre in Coimbatore will cater to students of Tamil Nadu and Puducherry. A centre is to come up in Chennai. J. Vijay Venkatraman, Head - Cliniminds, and the Director of the KTVR Group Hospital, said with India becoming a favoured destination for clinical research, formal education in this discipline was in high demand. By 2014, as many as 50,000 clinical research professionals would be required to meet the demand of the industry. Cliniminds would offer a wide range of job-oriented training and educational programmes with strong placement support. "Students from medical, dental, homeopathy, pharmacy, biotechnology, biochemistry, microbiology and other life

**Students from medical, dental, homeopathy, pharmacy, biotechnology and other life sciences can apply**

sciences are ideal for applying for these courses. The duration of the courses will vary from three months to a year. As many as 25 courses are being planned to be offered in collaboration with Manonmaniam Sundaranar University," Dr. Venkatraman said.

All courses were certified / accredited by the Pharmaceutical Society of India.

The Coimbatore centre is located at KTVR Gardens, 219, Marudha Konar Road, Velandipalayam, Coimbatore - 641025. Those interested can visit the website [www.cliniminds.com](http://www.cliniminds.com).
