

Press Release

Tenet Health Edutech Pvt. Ltd. (Cliniminds) Signs Agreement with Life Sciences Sector Skill Development Council, Ministry of Skill Development & Entrepreneurship, Government of India.

Cliniminds have entered into the agreement with Life Sciences Sector Skill Development Council (LSSSDC), under the Ministry of Skill Development & Entrepreneurship, Government of India to offer eSkill courses to the eligible candidates under the eSkilling initiative.

As a part of the offerings, LSSSDC have already approved certificate programs in clinical research, data management, pharmacovigilance, pharma business analytics under its e-Skilling initiative have currently been approved and students who successfully complete the programs would be offered certification. Several other programs in medical & scientific writing, healthcare decision analytics, and drug regulatory affairs are currently in pipeline for approvals.

Certificates would be awarded by LSSSDC upon passing of evaluation exams conducted by LSSDC. In addition, Cliniminds Post Graduate Diploma would be offered as add on upon successful completion of the program. Exams / Assessments would take place on LSSSDC platform at the end of the program.

On this occasion, Mr. Kamal Shahani, Managing Director said “LSSSDC has set the global standards in the life sciences skills and upskilling programs and this would assist Cliniminds students in not only in obtaining prestigious certification but also would help in job placements and building long term career in this very dynamic sector”.
