

**Dear Colleagues and Friends,**

**Greetings!!**

Yes, we have done it again - seems like its habit now of Team Cliniminds!!

I am pleased to announce the Hat-trick success of Cliniminds and yes, this year as well we have won the award for **“Best Clinical Research and Health Sciences Business Management Institute in India”**. So it is 2011, 2012 and now 2013 – three years in a row.

Though the clinical research and health sciences education industry is vast and competition is tough, but Cliniminds’ best overall quality, placements, training and corporate image has got us the award this year as well. We have left behind the competitors this year again.

This award is an appreciation of our quality, placements, honesty towards our students, work and dedication of all team members.

Award was presented by the most respected Advertising Guru of India Mr. Prahlad Kakkar to our Managing Director Mr. Kamal Shahani.

Please join me to congratulate Mr. Shahani. This award reflects his hard work, dedication, out of the box thinking and new amazing ideas which make him stand out and helping Cliniminds to grow in India and abroad. Special thanks entire Team Cliniminds for this outstanding success.

We hope to receive many more awards and accolades for our contribution in the global health sciences sector.

Thanks & best regards,

**Jaagriti Bhardwaj**

**National Manager - Business Development**
